Telugu Madhu Sudhan

Nandyal | mdhusdhndegree@gmail.com | 86883 81084 | Portfolio Website | LinkedIn | GitHub

Objective

Aspiring full stack developer with hands-on experience in React.js, Python, and Django, passionate about creating scalable, user-focused web applications. Eager to contribute technical expertise and problem-solving skills to innovative projects in a collaborative, growth-oriented environment.

Internship Experience

Web Development, Internzlearn   Feb 2025 – Mar 2025

- Built responsive, user-friendly interfaces using HTML, CSS, JavaScript, and React.js, enhancing cross-device usability and UI/UX design.

Full Stack Python Development, DataPro   Dec 2024 – Mar 2025

- Developed and integrated APIs with Django, optimized backend logic, and supported deployment in an Agile environment.

Education

Rayalaseema University, Bachelor of Computer Applications — *GPA: 8.2/10.0*   Sept 2022 – Apr 2025
Rao's Junior College, Intermediate Education — *GPA: 9.4/10.0*   Jul 2017 – Mar 2019
Jyothi High School, General Studies — *GPA: 9.5/10.0*   Jun 2016 – Mar 2017

Projects

Classic Snake Game   Live Demo

- Developed a mobile and browser-compatible Snake game with real-time movement, score tracking, and collision detection using DSA concepts.
- Tools Used: React.js, JavaScript, HTML Canvas & CSS

AI Image Generation Tool   Live Demo

- Developed an AI image generator with customizable models, aspect ratios, and input options to boost creativity.
- Tools Used: React.js, JavaScript, HTML&CSS, AI Image Generation API

Gemini AI Chatbot Clone   Live Demo

- Cloned an AI chatbot using the Gemini API, replicating its conversional abilities. This project enhanced my skills in API integration, AI-driven chat systems, and back-end development expertise.
- Tools Used: React.js, JavaScript, HTML&CSS, Gemini API

Netflix Design Clone Website   Live Demo

- Designed a visually engaging streaming platform with interactive elements, hover effects, and smooth navigation.
- Tools Used: Responsive Design Techniques, Browser Developer Tools, Git & GitHub

Website for Dairy Industry   Live Demo

- Designed and developed a user-friendly website for the dairy industry with features like online ordering, flexible delivery, customer support, and farmer registration to streamline operations and enhance engagement.
- Tools Used: HTML&CSS, JavaScript, Git, GitHub

Personal Portfolio Site   Live Demo

- I designed my portfolio website to showcase my projects, skills, and experience. It highlights my work in web development, offering a platform to explore my capabilities and approach to digital solutions.
- Tools Used: HTML&CSS, JavaScript

Skills

Frontend: HTML, CSS, JavaScript, TypeScript, React.js
Backend: Python, Django, SQL
Version Control & Deployment: Git, GitHub, Netlify
Developer Tools: Visual Studio Code, Chrome DevTools
Soft Skills: Problem-Solving, Communication, Team Collaboration, Time Management, Adaptability.

Certificates

Introduction to Front-End Development, Coursera (offered by Meta)
Javascript For Beginners Complete Course, Coursera (offered by Meta)
The Ultimate MySQL Bootcamp: Go from SQL Beginner to Expert, Udemy
Typewriting English Higher(45 WPM), State Board of Technical Education and Training
